RALPH C. MATSON, M.D.
Editor-In-Chief

MURRAY KORNFIELD
Managing Editor

- 1—ADDRESS (July, P. 227) John H. Peck, M.D., Oakdale, Iowa
- 2—ADDRESS OF PRESIDENT, SOUTHERN TUBERCULOSIS CONFERENCE (Feb., P. 48) Paul A. Turner, M.D., Louisville, Ky.
- 3—ADVANTAGES OF THE STANDARD STEREOSCOPIC EXAMINATION OF THE LUNGS WITH 14x17 INCH FILMS IN THE DIAGNOSIS OF PULMONARY TUBERCULOSIS (Oct., P. 326) B. R. Kirklin, M.D., Rochester, Minnesota
- 4—AIR EMBOLISM: ITS CAUSE AND TREATMENT (Apr., P. 146) Shaw McDaniel, M.D., Houston, Texas
- 5—ALLERGY IN TUBERCULOSIS (May, P. 175) J. A. Rudolph, M.D., Columbus, Ohio
- 6—ANESTHETIC METHODS COMPATIBLE WITH THE USE OF CAUTERY IN THORACIC SURGERY: A PRELIMINARY REPORT (Dec., P. 406) John H. Hutton, M.D., Portland, Oregon
- 7—BRIEF HISTORY OF ORGANIZED EFFORTS AGAINST TUBERCULOSIS IN THE STATE OF TEXAS (Apr., P. 128) Z. T. Scott, M.D., Austin, Texas
- 8—BRIEF HISTORY OF THE TUBERCULOSIS MOVEMENT IN OKLAHOMA (Apr., P. 120) Murray Kornfeld, Chicago, Illinois
- 9—BRONCHOLOGY: ITS CLINICAL APPLICATION (Feb., P. 51) Paul Bailey, M.D., Portland, Oregon
- 10—BRONCHOSCOPY AS AN AID TO PULMONARY DIAGNOSIS (Aug., P. 272) Ralph A. Fenton, M.D., Portland, Oregon
- 11—CALCIFICATION OF THE CORONARY ARTERY—Report of a Case (Apr., P. 124) J. Floyd Moorman, M.D., Oklahoma City, Oklahoma
- 12—CARCINOMA OF THE LUNG (Aug., P. 267) Samuel A. Thompson, New York, New York
- 13—CASE FINDING: THE BASIS OF TUBERCULOSIS CONTROL (Feb., P. 39) Herbert R. Edwards, M.D., New York, N. Y.
- 14—CHEMOTHERAPY IN THE MANAGEMENT OF PNEUMOCOCCIC PNEUMONIA (Aug., P. 263) Abel Levitt, M.D., Harold Schweitzer, M.D., and Kenneth Goldstein, M.D., Buffalo, New York
- 15—CLINICAL ASPECTS OF HILUM TUBERCULOSIS IN CHILDREN (May, P. 172) Leo V. Schneider, M.D., Glenn Dale, Maryland
- 16—CLOSED INTRAPLEURAL PNEUMONOLYSIS (Apr., P. 144) David McCullough, M.D., and John Chapman, M.D., Sanatorium, Texas
- 17—CLOSED INTRAPLEURAL PNEUMONOLYSIS—A TWO YEAR EXPERIENCE WITH NEGROES (Aug., P. 259) Reuben Hoffman, M.D., and Otto Brantigan, M.D., Henrytown, Maryland
- 18—CORRELATION OF SIGNS AND SYMPTOMS (July, P. 244) Ernest B. Emerson, M.D., Rutland, Massachusetts
- 19—DIAGNOSIS AND TREATMENT OF PULMONARY TUBERCULOSIS (Nov., P. 360) Robert H. Baker, M.D., Worcester, Mass.
- 20—DIAGNOSIS AND TREATMENT OF TUBERCULOSIS (Jan., P. 7) C. J. Koerth, M.D., H. P. Thomas, M.D., and J. M. Donaldson, Jr., M.D., San Antonio, Texas
- 21—DIFFERENTIAL DIAGNOSIS OF LUNG TUMORS (Feb., P. 55) Carlo J. Tripoli, M.D., and Richard E. Selser, M.D., New Orleans, Louisiana
- 22—EARLY DIAGNOSIS OF PRIMARY NEOPLASMS OF THE LUNG (Nov., P. 366) Harry Konterwitz, M.D., Long Island City, New York
- 23—EARLY DIAGNOSIS OF PULMONARY TUBERCULOSIS AND ITS IMPORTANCE (June, P. 215) Hugh S. Edwards, M.D., Atlanta, Georgia
- 24—ELEVEN YEAR STUDY OF THE TREATMENT OF PULMONARY TUBERCULOSIS BY ARTIFICIAL PNEUMOTHORAX (Sept., P. 305) Samuel T. Busansky, M.D., Browns Mills, New Jersey
- 25—EVALUATION OF PAPER FILMS IN MASS X-RAY SURVEYS (Oct., P. 328) Joseph W. Post, M.D., Philadelphia, Pa.
- 26—EVALUATION OF TUBERCULIN TESTS AND CORRELATING ROENTGENOGRAMS (Nov., P. 377) Paul D. Crimm, M.D., Evansville, Indiana
- 27—EXAMINATIONS FOR TUBERCULOSIS (Oct., P. 348) Herbert E. Edwards, M.D., and David E. Ehrlich, M.D., New York, New York
- 28—EXTRAPERIOSTEAL PNEUMOTHORAX IN TREATMENT OF PULMONARY TUBERCULOSIS—A PRELIMINARY REPORT (Apr., P. 150) Charles Philamore Bailey, M.D., Philadelphia, Pa.
- 29—EXTRAPLEURAL PNEUMOTHORAX: A REPORT OF EXPERIENCES AND PRESENT DAY INDICATIONS (Mar., P. 80) Richard H. Overholt, M.D., Brookline, Massachusetts
- 30—FLUOROSCOPE IN THE DIAGNOSIS OF PULMONARY TUBERCULOSIS (Dec., P. 398) E. W. Hayes, M.D., Monrovia, Calif.
- 31—4x5 X-RAY FILM AS A DIAGNOSTIC SCREEN (Oct., P. 330) Robert E. Plunkett, M.D., Albany, New York
- 32—FUNGUS DISEASES OF THE LUNGS (Sept., P. 292) Arthur Q. Penta, M.D., Schenectady, New York
- 33—HEMOPTYSIS ASSOCIATED WITH EPILEPTIFORM ATTACKS (Feb., P. 44) Hugh G. Whitehead, M.D., Portsmouth, Virginia
- 34—IMPORTANCE OF EARLY DIAGNOSIS IN TUBERCULOSIS (Dec., P. 408) A. Louis Gramsch, M.D., Ridgewood, New Jersey
- 35—INDICATIONS FOR VOLUNTARILY DISCONTINUING ARTIFICIAL PNEUMOTHORAX TREATMENT (Mar., P. 70) John N. Hayes, M.D., Saranac Lake, New York
- 36—INTESTINAL TUBERCULOSIS (Apr., P. 115) W. R. Hewitt, M.D., Tucson, Arizona
- 37—INTRAPLEURAL HEMORRHAGE—ITS OCCURRENCE IN THE COURSE OF ARTIFICIAL PNEUMOTHORAX TREATMENT FOR TUBERCULOSIS (Aug., P. 269) Mark H. Joross, M.D., Boston, Massachusetts
- 38—MANAGEMENT OF FLUIDS COMPLICATING PNEUMOTHORAX (Dec., P. 391) Dean B. Cole, M.D., and Walter L. Nalls, M.D., Richmond, Virginia
- 39—MANTOUX VS. PATCH TEST (Feb., P. 53) Edward Lebovitz, M.D., Pittsburgh, Pennsylvania
- 40—MONALDI PROCEDURE—A PROGRESS NOTE (Nov., P. 373) Edward Kupka, M.D., Los Angeles, California
- 41—OBSERVATIONS OF TUBERCULOSIS CAVITIES WITH SPECIAL REFERENCE TO TRANSPLEURAL DECOMPRESSION (June, P. 205) Alfred Goldman, M.D., San Francisco, California
- 42—OPPORTUNITIES AND RESPONSIBILITIES (May, P. 163) Matthew Woll, New York, New York
- 43—PHYSICAL EXAMINATION IN PULMONARY TUBERCULOSIS (Mar., P. 88) Champ H. Holmes, M.D., Atlanta, Georgia
- 44—PRACTICAL POINTERS FOR THE GENERAL PRACTITIONER IN DIAGNOSING TUBERCULOSIS (Sept., P. 310) William M. Kinney, M.D., Joplin, Missouri
- 45—PRINCIPLES OF THE PNEUMOPERITONEUM TREATMENT OF PULMONARY TUBERCULOSIS (Dec., P. 402) Andrew L. Banyai, M.D., Waumata, Wisconsin
- 46—PROCEEDINGS OF THE MILITARY AFFAIRS COMMITTEE (Oct., P. 337) Chas. M. Hendricks, M.D., El Paso, Texas
- 47—PULMONARY ACTINOMYCOSIS COMPLICATED BY PNEUMOTHORAX TREATMENT (July, P. 229) Leo V. Schneider, M.D., and Daniel Leo Finucane, M.D., Glenn Dale, Maryland
- 48—PULMONARY TUBERCULOSIS (June, P. 212) Louis Benson, M.D., Pittsford, Vermont
- 49—RECURRENT SPONTANEOUS PNEUMOTHORAX (May, P. 166) Henry G. Hadley, M.D., Washington, D. C.
- 50—REFLEX AND CHEMICAL CONTROL OF RESPIRATION (July, P. 236) H. F. Haney, M.D., Portland, Oregon
- 51—REPORT—COMMITTEE FOR THE ADVANCEMENT OF TUBERCULOSIS ORGANIZATION IN MEDICINE (Jan., P. 24) Benjamin Goldberg, M.D., F.A.C.P., F.A.C.C.P., Chicago, Illinois
- 52—ROENTGENOLOGY OF GASTRO-INTESTINAL TUBERCULOSIS (Sept., P. 308) Dorwin L. Palmer, M.D., Portland, Oregon
- 53—SURGICAL TREATMENT OF ACUTE PULMONARY ABSCESS (Mar., P. 74) Harold Neuhoof, M.D., New York, New York
- 54—THERAPEUTIC USE OF IODIZED OIL IN CHRONIC BRONCHITIS AND BRONCHIECTASIS (Jan., P. 20) William Davis Tewksbury, M.D., F.A.C.P., and E. Raymond Fenton, M.D., Washington, D. C.
- 55—35 mm. FLUOROGRAPHY AS USED BY THE U. S. NAVY (Oct., P. 333) Robert E. Duncan, M.D., Washington, D. C.
- 56—TREATMENT OF PULMONARY INFECTIONS WITH SULFANILAMIDE, SULFAPYRIDINE, AND SULFATHIAZOLE (June, P. 195) W. Halsey Barker, M.D., Baltimore, Maryland
- 57—TUBERCULOSIS AND PREGNANCY (Nov., P. 360) Frederick H. Falls, M.D., Chicago, Illinois
- 58—TUBERCULOSIS CAMPAIGN IN ARIZONA (Apr., P. 103) T. C. Cuvelier, Phoenix, Arizona
- 59—TUBERCULOSIS CASE FINDING (July, P. 241) C. I. Silk, M.D., Perth Amboy, New Jersey
- 60—TUBERCULOSIS IN THE NEXT DECADE—A PREDICTION (Dec., P. 393) Louis I. Dublin, Ph.D., New York, New York
- 61—TUBERCULOSIS PROBLEM IN THE MOBILIZATION OF MILITARY AND NAVAL PERSONNEL (Jan., P. 18) Frank Walton Burge, M.D., F.A.C.P., F.A.C.C.P., Philadelphia, Pa.
- 62—VISUALIZATION OF CAVITIES IN POSTTHORACOPLASTY LUNGS (Aug., P. 274) J. L. Leon, M.D., H. Green, M.D., and C. A. Serbst, M.D., Staten Island, New York
- 63—"WAR AND TUBERCULOSIS (Oct., P. 322) Benjamin Goldberg, M.D., Chicago, Illinois
